

About this Resource

This resource was developed by ARPDC team members to provide clarification and support for teaching of the verbs specific to the context of Alberta's K-3 Math Curriculum (2022).

Glossary

- An alphabetic list of each of the student actions/verbs found within the Learning Outcomes and Skills and Procedures. Each definition is related specifically to its use in the K-3 Math Curriculum.

Visual Definition Cards

- A complete set of individually printable cards for each of the verbs that contains the definition, and a visual representation of the student action. Each card demonstrates a particular Learning Outcome or Skill and Procedure from the K-3 Math Curriculum.

Teacher Toolkits

- A set of toolkits for selected verbs which contain additional information for teachers about the verb, specific grade level contexts and illustrative examples that express how the student actions may be intentionally included within learning experiences. Teacher Toolkits are identified by an * in the Glossary.

PDF Resource Package

- This complete package contains all the resources as well as a video recording to introduce the resource.
